

OPSVERITAS — CUSTOM ENTERPRISE AI

WE BUILD CUSTOM ENTERPRISE AI AGENTS BECAUSE WE ALREADY RUN FOUR OF OUR OWN.

The same team that builds and operates OpsVeritas, AI Agents Control Tower, and Recruiter also designs and delivers custom AI agent systems for other businesses — real production engineering, proven on our own always-on systems before it ever reaches yours.

WHAT WE BUILD

FIFTEEN CAPABILITIES. MOST OF THEM ALREADY LIVE.

Status-labeled honestly — live, delivered, or not yet built for a client.

LIVE — POWERS OPSVERITAS

Workflow & Process Automation

Connect to n8n, Make, Zapier, APIs, webhooks; multi-step process automation with health monitoring built in.

LIVE — COMM ASSISTANT

Document Intelligence

OCR, malware/virus scanning, structured extraction from inbound documents.

LIVE — COMM ASSISTANT

AI-Assisted Communication

Persona-aware drafting, human review before send, full audit trail.

LIVE — POWERS RECRUITER

Candidate & Decision Scoring

AI-assisted evaluation, explainable panel-reviewed scoring.

LIVE — AGENTS CONTROL TOWER

AI Agent Cost & Reliability

Token/cost accounting, budget kill-switches, execution-failure detection.

LIVE — POWERS OPSVERITAS

Multi-Channel Alerting

Slack, Email, Teams fire simultaneously the moment something needs attention.

LIVE — ALL FOUR PRODUCTS

Governance & Audit

Tamper-evident, hash-chained audit log from day one.

LIVE — BUILT FOR A CLIENT

Task & Workflow Sync Bots

Pulls live status from a client's systems into structured Slack/Teams digests.

LIVE — RUNS OUR OWN GROWTH

Sales & Outreach Intelligence

Automated lead sourcing, enrichment, multi-channel outreach.

DELIVERED FOR A CLIENT

Data Cleanup & Hygiene

Bulk record cleanup and deduplication inside CRM/data systems.

AVAILABLE FOR CUSTOM BUILDS

Enterprise Knowledge (RAG)

Grounded retrieval over your documents, citing real sources.

AVAILABLE FOR CUSTOM BUILDS

Decision & Operational Intelligence

AI-assisted recommendations with evidence behind every suggestion.

NOT YET DELIVERED

Finance & Procurement Automation

Invoice/document workflows, reconciliation, exception handling.

NOT YET DELIVERED

Computer Vision

Visual inspection and interpretation workflows.

NEW SERVICE LINE

Custom Enterprise Agent Builds

Scoped, bespoke systems on the same engineering discipline. Comm Assistant is the first example.

PROOF, NOT A PITCH DECK

APEX COMM ASSISTANT

Built for Apex AI Arabia — live in production today.

A real example, not a mockup.

- Inbox ingestion across multiple accounts
- Malware/virus scanning on every attachment
- OCR and document extraction, incl. scanned PST/OST archive import
- Persona-aware AI drafting, human-reviewed before send
- Full tamper-evident audit trail across the pipeline
- Security hardening review — 91 findings addressed and closed

We don't have a wall of anonymized references. We have one system you could actually go look at, running for a real company, today.

OpsVeritas

LIVE — MONITORS ITS OWN GROWTH ENGINE

- Watches every workflow we run, incl. our own marketing automation
- Status checked every few minutes

AI Agents Control Tower

LIVE — WATCHES EVERY AGENT WE RUN

- Tracks token cost/spend in real time
- Budget kill-switch prevents runaway cost

Recruiter

LIVE — REAL PRODUCTION HARDENING

- Panel-reviewed scoring, not a black box
- 1,080+ test suite audit passed

Task & Workflow Sync Bot

BUILT FOR A REAL CLIENT

- Live ERP data into Slack digests, twice daily

Sales & Outreach Intelligence

LIVE — RUNS OUR OWN GROWTH

- Sources, enriches, and runs daily outreach

Data Cleanup Automation

DELIVERED FOR A CLIENT

- 500 CRM records cleaned and deduplicated

HOW WE BUILD

FROM DISCOVERY TO A SYSTEM YOU ACTUALLY WATCH.

01	02	03	04	05	06
Discover	Design & Architect	Build	Integrate	Validate	Operate & Monitor

ENGINEERING FOUNDATION

A REAL, RUNNING STACK — NOT A SLIDE.

FRONTEND	Next.js / React
BACKEND	Python / FastAPI
DATA	PostgreSQL (Supabase)
ORCHESTRATION	n8n workflow automation
AI / MODELS	Model-flexible — Anthropic Claude, OpenAI, Gemini, and others, matched to what you already use
DEPLOYMENT	Vercel / Render, containerized where needed

TRUST & GOVERNANCE

NOT A BULLET LIST OF INTENTIONS.

Tamper-Evident Audit Log Hash-chained logging on every system, from day one.	Human Review Before Send No autonomous outbound communication without a person in the loop.	Completed Security Hardening 91 findings — addressed and closed, not left open.
---	--	--

WHO YOU'RE WORKING WITH

SMALL, SENIOR, AND MULTI-DISCIPLINE.

Engineering, legal, HR, finance, and marketing under one roof. Led by **Babar Hayat** (CEO), **Abdullah Khan** (COO), and **Saima** (Tech Lead) — you talk directly to the people building it, no offshore handoff layers.

ENGAGEMENT MODEL

SCOPED PER PROJECT. NO FORCED RETAINER.

Every build is scoped per project — we talk through what you actually need first, then quote based on scope, integrations, and delivery requirements. No fixed retainer required to start the conversation.

NEXT STEPS
